SUMMARY

I am a passionate **Software Engineer** with a focus on **solving problems** and delivering **impactful results**. While I currently specialize in **web and app development**, I am highly **adaptable** and **quick to learn** any field or technology where I'll get to learn something new. I'm ready to work in **collaborative environments**, where being part of a great team allows me to contribute meaningfully while growing both **personally** and **professionally**. I also write articles in my free time to share my learnings about **tech**.

PORTFOLIO

https://rumaisa.netlify.app/

PROFESSIONAL EXPERIENCE

Associate Software Engineer - KoderLabs   **June 2025 - Present**

- Developed scalable, high-performance mobile applications using React Native and web applications using React and Next.js.
- Integrated RESTful APIs to deliver dynamic, real-time features across mobile and web platforms.
- Implemented location-based features using Google Maps APIs.
- Built responsive, SEO-friendly UIs with Next.js, TypeScript, and Tailwind CSS.
- Ensured cross-platform compatibility and performance optimization for Android, iOS, and web.
- Wrote reusable components and managed application state using Zustand.
- Collaborated with backend teams on API design, integration, and optimization.
- Actively participated in bug fixing, R&D, and code reviews while following industry best practices.

Associate Software Engineer - Native Brains   **Feb 2024 - May 2024**

- Translated wireframes into functional and responsive front-end code, contributing to a seamless user experience and efficient project development
- Collaborated closely with backend developers and designers, ensuring smooth integration of design elements and APIs to meet project requirements and deadlines
- Followed best coding practices, including clean and maintainable code, and integrated RESTful APIs and services

SKILLS

- **Frontend Technologies:** Next.js, React.js, React Native, Ant Design, Shadcn, TypeScript, JavaScript, Redux, Context API, Tailwind CSS, HTML5, CSS3
- **Tools & Platforms:** Visual Studio Code, Figma, Slack, Postman
- **API Integration:** RESTful APIs, Axios, Fetch API
- **Authentication:** Clerk, Firebase, NextAuth
- **Other:** Version Control (Git), Agile Methodologies, Best Coding Practices, Scalable Folder Structure & Reusable Components

EDUCATION

Bachelor of Science in Software Engineering   **Jan 2022 - Nov 2025**

Department of Computer Science (UBIT)
